Your ADAM Journey Starts Here

”

Discover a structured, practical learning experience built around real service-center technologies and modern premium cars.

We help you learn, practice, and become confident in diagnosis, repair, and communication, so you are ready for the automotive industry from day one.

What You Get

- ✓ Comprehensive training in EVs and advanced automotive technology
- ✓ Curriculum developed & overseen by Mercedes-Benz
- ✓ Hands-on learning with state-of-the-art tools & equipment
- ✓ Limited seats (20) for personalised attention
- ✓ Interactive and computer-based learning

A circular inset image showing a modern training facility. In the foreground, several white desks are arranged in rows, each equipped with a computer monitor displaying the Mercedes-Benz logo. In the background, a large screen shows a technical diagram of a car chassis. To the right of the main text area, a separate image shows a car engine mounted on a metal stand.

Explore ADAM Training and Modules

Workshop & Practical Modules

Dismantling/assembling major components (modern engines, gearboxes), hands-on system checks, and real-time fault diagnosis.

Diagnostics & Digital Tools

Use modern diagnostic equipment & access workshop manuals, exposure to computerised diagnostic (Xentry).

Assessment & Certification

Final assessment by industry experts with certification aligned to Mercedes-Benz Academy standards—valued across the OEM's service ecosystem globally.

Careers & Employment Pathways

Employment pathways within the Mercedes-Benz network and leading automotive OEMs—with opportunities in India and abroad.

Because building a career in Automotive Technology should be **exciting — not confusing.**

Why ADAM?

ADAM shapes industry-ready experts through hands-on training in premium vehicle technologies, EVs and the latest diagnostic tools.

Eligibility: Diploma or Degree in Automobile/Electrical/Electronics/Instrumentation/Mechanical (or equivalent).

Female candidates are eligible for a special scholarship by Mercedes-Benz.
